

Not Just Another “Pedestrian” Art Contest February 06th-20th

The second event of the point series will celebrate the creative side of our club members.

And, no, you do not need to be a “Van Gogh” or part of Canada’s “Group of Seven” painters to excel at this. The “artwork” can be as simple, or as complex as you can make it.

It will require you to think about and plan the running or walking route that you will do for this event. Look at the map of the community or area in which you run. Can you see a pattern in the layout of the streets?

When:

- Between February 06th and February 20th.

How is it going to work:

- plan a walking or running route to create a design or artwork.
- record your route with a gps, smart watch or telephone (or as a last resort trace it out on a map).
- send a link of your route design (Strava, Garmin, Coros, etc.) to the club email address: info@crr.ca

Bonus points will be awarded for:

- those who can incorporate background art into their gps route trace data.
- time spent and distance covered will be also be considered.

Judging will occur after February 20th. Judging shall be made by a small, still to be selected, committee of impartial subject matter experts.

Have fun! Be creative! Who knows? Maybe your latent artistic talent will be discovered and you will become the latest and greatest thing in the Fredericton art community.

Paul
